POSITION OF METAL BORDERS SEPARATING DIFFERENT PAVEMENT MATERIALS AND BETWEEN GREEN AREAS AND HARD PAVEMENT (NO THICK ELEMENTS ALLOWED)

- Joint between hard pavement and green area: heavy duty curved corten steel landscape edging / plate 6mm thick and 15cm high
- No other extra element between the 2 different pavements in sight allowed
- Important plate will not stick out from the surface of the hard pavement at any point more than 3cm
- Curves will be continuous and done precisely
- Lëvizjet midis trotuarit të fortë dhe zonës së gjelbrë: pllaka çeliku të pandrykshëm dhe shumë rezistent për cepat e rrugëve / pllakë 6 mm e trashë dhe 15 cm e lartë
- Nuk lejohet asnjë element tjetër shtesë midis trotuarëve të ndryshme në pamje
- E rëndësishme: pllakë nuk do të dalë nga sipërfaqja e trotuarit të fortë në asnjë pikë më shumë se 3 cm
- Kthesat do të jenë të vazhdueshme dhe do të bëhen me saktësi

STEEL PLATE BETWEEN PAVEMENTS AND BETWEEN PAVEMENTS AND GREEN AREAS

PLLAKA E ÇELIKUT MIDIS TROTUARVE DHE MIDIS TROTUARVE DHE ZONAVE TE GJELBRA

- CIRCULATIONS**
- PEDESTRIANS
 - BICYCLES
 - CARS

MATERIALIZATION (ONLY FLOORS / NO URBAN ELEMENTS, NO BENCHES)

- GREEN AREAS / VEGETATION
- SAND 20CM / RERE 20CM
- COMPACTED LIGHT GRAY GRAVEL / ZHAVORRI I KOMPAKESUAR I KUQ
- COMPACTED RED GRAVEL / ZHAVORRI I KOMPAKESUAR I KUQ
- BROWNISH RED / RED CEDAR / TEAK COMPOSITE DECKING FINISHING
- FINE PICKED GRANITE COBBLESTONE BLACK AND WHITE (BCM)
- KALLDREMI GRANITI I ZGJEDHUR MIRE (8 CM), E ZEZE DHE E BARDHE
- FINE PICKED GRANITE COBBLESTONE BLACK AND WHITE (BCM) / ANTI-SLIP
- KALLDREMI GRANITI I ZGJEDHUR MIRE (8 CM), E ZEZE DHE E BARDHE / KUNDER FRESHQITJE
- LIGHT GREY FINE PICKED GRANITE COBBLESTONE
- GRANITE STONE FLAT
- LIMESTONE LIGHT GREY / GJELQEROR GRI I HAPUR
- RED ASPHALT WITH SYMBOL OF BICYCLE PATH / ASFALTI I KUQ NE RRUGEN E BIKKLETAVE
- CONCRETE LAYER / SHITRESE E BETONIT
- WHITE CONCRETE LAYER / SHITRESE E BARDHE E BETONIT
- ELASTIC LAYER (PVC) 1.5CM / SHITRESE ELASTIKE (PVC) 1.5CM
- TENNIS COURT AND SPORTS PLATFORM FITNESS STATION 2 / FUSHA E TENISIT DHE PLATFORMA SPORTIVE FITNESS STATION 2
- ELASTIC LAYER (PVC) 1.5CM / SHITRESE ELASTIKE (PVC) 1.5CM
- BASKETBALL COURT / FUSHE BASKETBOLLI
- ELASTIC LAYER (PVC) 1.5CM / SHITRESE ELASTIKE (PVC) 1.5CM SMALL FOOTBALL COURT
- BLUE ASPHALT (SPORTS AND GAMES)
- ASPHALT-CONCRETE 4 CM / ASFALTO-BETON 4CM
- SAND 20CM / RERE 20CM PETANQUE AREA
- WOOD INTERIOR / BRENDSHIME DRURI
- CERAMIC TILES (INTERIOR) / PLAGA QERAMIKE (TE BRENDSHIME)
- TWO-COMPONENT, SOLVENT-FREE SYNTHETIC RESINS FINISHING
- HIGH-QUALITY NATURAL APPEARANCE AS CEDAR WOOD

ROZAFIA BRIDGE MATERIALIZATION:

- Floor finishing bridge decks: 8mm two-component, solvent-free synthetic resins finishing
- Color: very light gray as in reference pictures and visualizations
- Handrailing: Corten steel without visible joints

EDGING BETWEEN HARD PAVEMENT AREAS AND GREEN AREAS:

- Without exception in the whole surface of the park the curved borders between pavement areas and green areas will be made with a steel plate
- NO THICK BORDERS ALLOWED.
- Heavy duty stainless steel landscape edging
- Corten steel plate 6mm thick and 15cm high
- Roll topped (no sharp edge to avoid damaging humans or animals)
- Flexible format to adapt well to all curves
- 100% flat with pavement on both sides
- No other extra element between the pavement and the green area in sight allowed
- Plate will stick out from the level of the flat pavement 5cm to contain the earth on the other side
- Curves will be continuous and done precisely
- All pieces must be at equal level creating a 100% continuous border
- The edging must be 100% stable, robust and vertical

EDGING BETWEEN TWO PAVEMENT AREAS:

- Without exception in the whole surface of the park the curved borders between pavement areas will be made with a steel plate
- NO THICK BORDERS ALLOWED.
- Heavy duty stainless steel landscape edging
- Steel plate 6mm thick and 15cm high
- Color: natural
- 100% flat with pavement on both sides
- No other extra element between the 2 different pavements in sight allowed
- No sticking border allowed
- Curves will be continuous and done precisely
- All pieces must be at equal level creating a 100% continuous border
- The edging must be 100% stable, robust and vertical

**NO THICK BORDERS ALLOWED
JO KUFJU TË TRASHË LEJOHET**

DD-A05 Vegetation N

Drawing number	Description		
Detail Design	1067 x 594 mm.	1:2000	24-03-2023
Phase	Format	Scale	Date
L077	Master Plan of Interventions at the Entrance of Shkodra		
Project number	Project name		

Lomradade 2/A
 3011 AH Rotterdam
 T +31 (0)10 240 9333
 F +31 (0)10 240 9229
 contact@casanova-hernandez.com

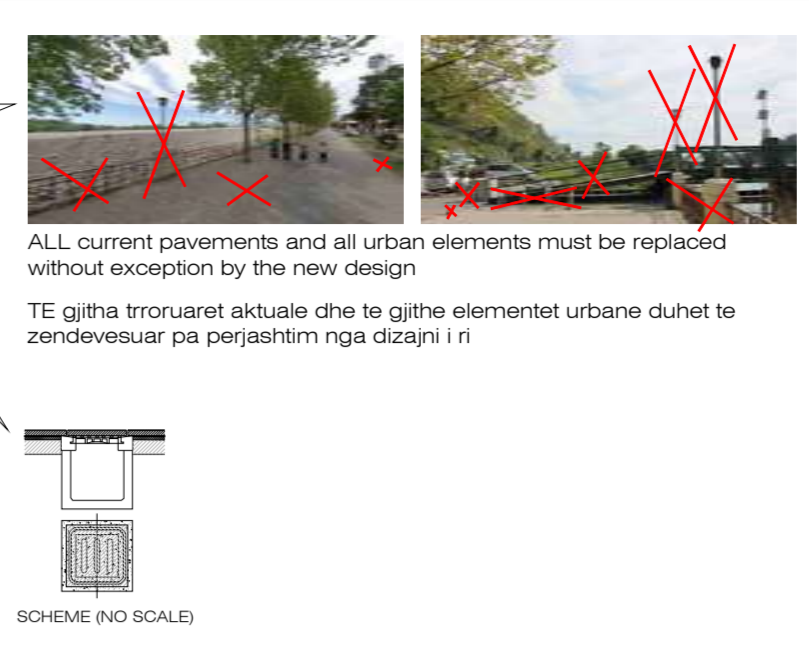

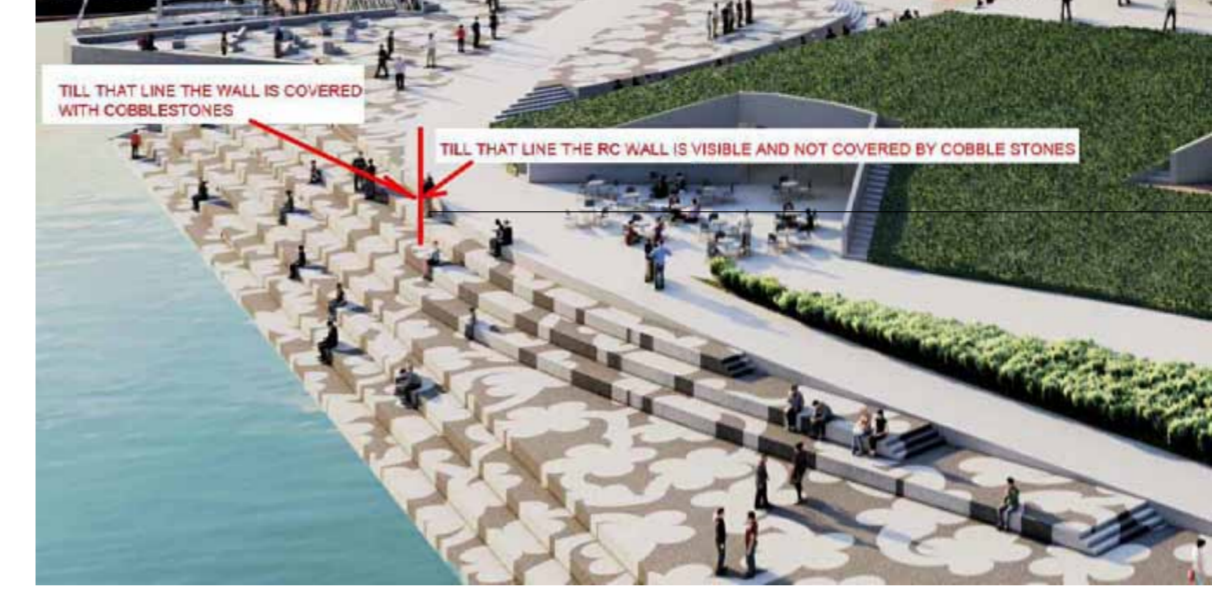

IMPORTANT NOTES:

- All existing handrailings, elements of urban furniture, all urban lights, floors, walls or any other visible part of the current situation in the area of this project must be 100% removed and replaced by the new design. mixing of current and new design is not allowed.
- Joints between two hard pavement areas: heavy duty curved stainless steel landscape edging / steel plate 6mm thick and 15cm high, 100% flat with pavement on both sides / no other extra element between the 2 different pavements in sight allowed / no sticking border allowed / curves will be continuous and done precisely
- Joints between hard pavement and green area: heavy duty curved corten steel landscape edging / plate 6mm thick and 15cm high / no other extra element between the 2 different pavements in sight allowed / the plate will not stick out from the surface of the hard pavement at any point more than 3cm / curves will be continuous and done precisely
- Without exception all manholes (in all kinds of geometries: round, square, etc) in stone areas have to be covered by the stone pavement: no manhole will be visible in these areas.
- Position litter bins: all the litter bins are always located next to another urban element, a bench, a tree or a lighting pole. No litter bin will be placed isolated.
- The precise position of the electrical cabinets is given in this plan. The position of these elements in the engineer's plans is only orientative.

SHENIME TË RËNDËSISHME:

- Të gjitha parrmagjet ekzistuese, elementët e mobiljeve urbane, të gjitha dritat urbane, dyshemetë, muret apo çdo pjesë tjetër e dukshme e situatës aktuale në zonën e këtij projekti duhet të hiqen 100% dhe të zëvendësohen me dizajnin e ri. Nuk leqet përzierja e dizajnit aktual dhe atij të ri.
- Lidhje midis dy zonave të trotuarit të forta: pllaka çeliku të pandryshkshëm dhe shumë rezistent për cepat e rrugëve / pllaka çeliku 6 mm e trashë dhe 15 cm e lartë, 100% e sheshtë me trotuarin nga të dyja anët / nuk leqet asnjë element tjetër shitesh midis 2 trotuarëve të ndryshëm në pamje / nuk leqet ngjitja e kufirit / kthesat do të jenë të vazhdueshme dhe do të bëhen me saktësi
- Lidhjet midis trotuarit të fortë dhe zonës së gjelbër: pllaka çeliku të pandryshkshëm dhe shumë rezistent për cepat e rrugëve / pllaka 6 mm e trashë dhe 15 cm e lartë / nuk leqet asnjë element tjetër shitesh midis 2 trotuarëve të ndryshëm në pamje / pllaka nuk do të dalë nga sipërfaqja e trotuarit të fortë në asnjë pikë më shumë se 3 cm / kthesat do të jenë të vazhdueshme dhe do të bëhen me saktësi
- Pa përjashtim të gjitha pusët (në të gjitha lojet e gjeometrive: të rrumbullakëta, katrore, etj) në zonat e gurta duhet të mbulojnë nga trotuari prej guri. Asnjë pusët nuk do të jetë e dukshme në këto zona.
- Pozicionimi i koshat e mbeturinave: të gjithë koshat e mbeturinave janë gjithmonë pranë një elementi tjetër urban, një stol, një pemë ose një shtyllë ndriçimi. Asnjë kosh mbeturinash nuk do të vendoset i izoluar.
- Pozicioni i sakosë i kabnave elektrike është dhënë në këtë plan. Pozicioni i këtyre elementeve në planat elektrike është vetëm orientues.

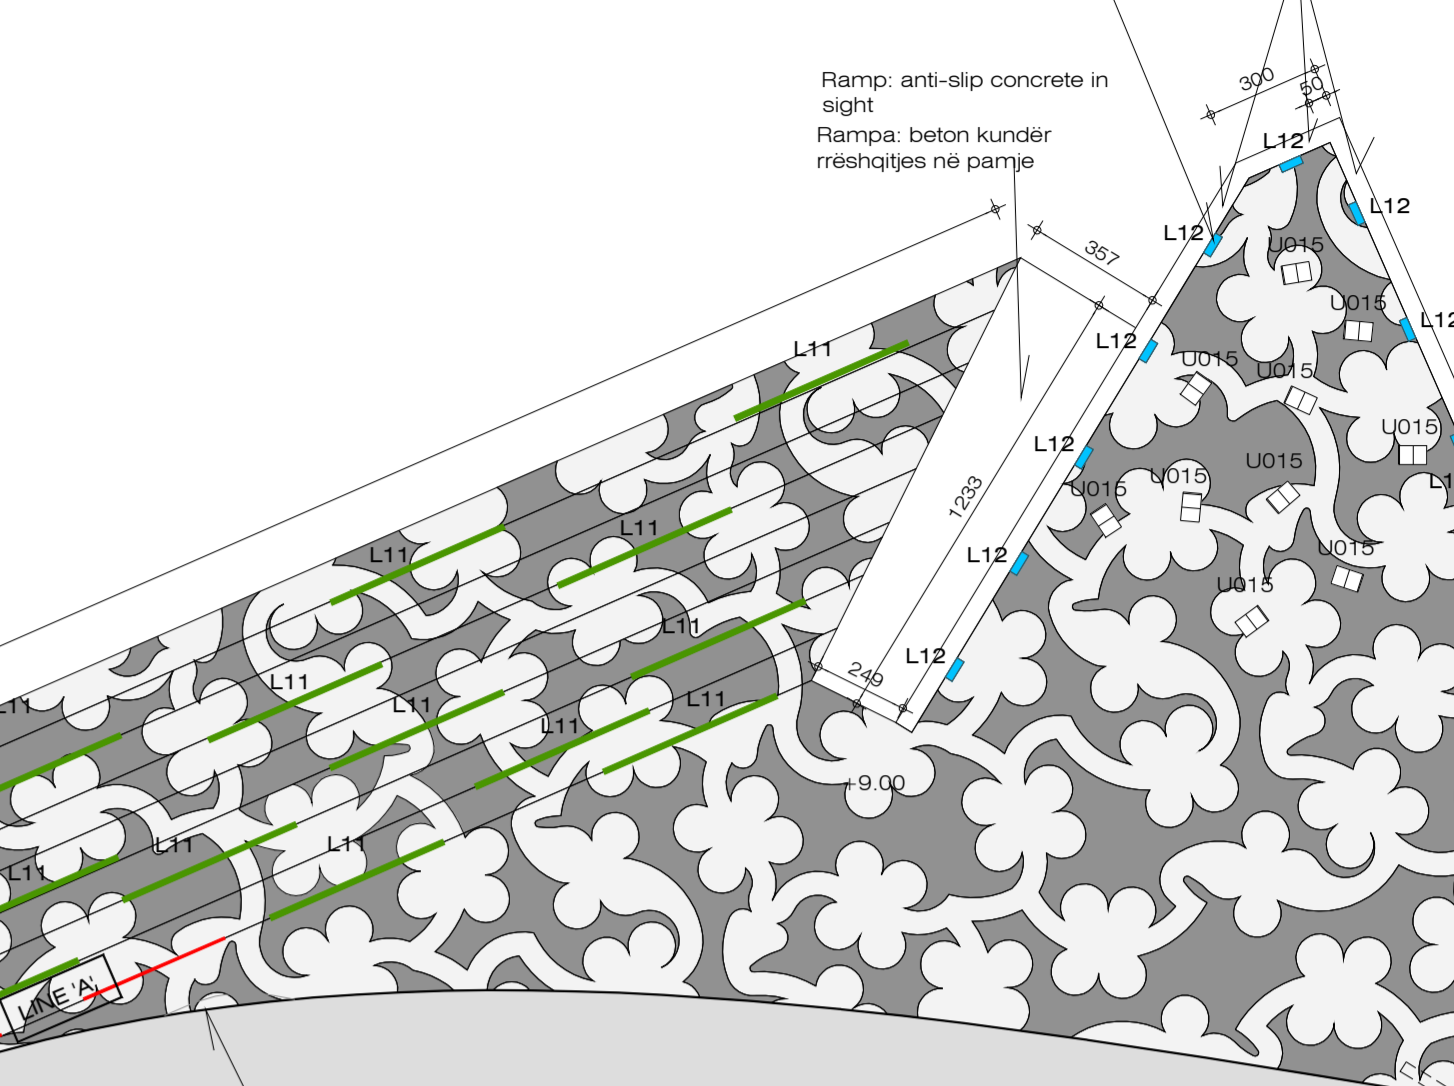

In this drawing and all other drawings at this scale the symbols indicating the urban lights I12 only indicate a general position, but all lights are integrated inside the wall (see detail plans). All outside surface of the luminaires is flat and aligned with the stone finishing of these walls.

Në këtë vizatim dhe në të gjitha vizatimet e tjera në këtë shkallë, simbolët që tregojnë dritat urbane I12 tregojnë vetëm një pozicion të përgjithshëm, por të gjitha dritat janë të integruara brenda murt (shih planet e detajit).

E gjithë sipërfaqja e jashtme e ndriçuesve është e rrafshët dhe e përfaqëuar me përfundimin prej guri të këtyre murave.

Shitresha e fundit e veshjes me gure e murt zgjatet deri në 1.5 m poshtë nivelit të murit dhe të ujit në lumë, (shiko vizatimet teknike).

NEW BALUSTRADE/ PARMAKU I RI

IMPORTANT NOTES:

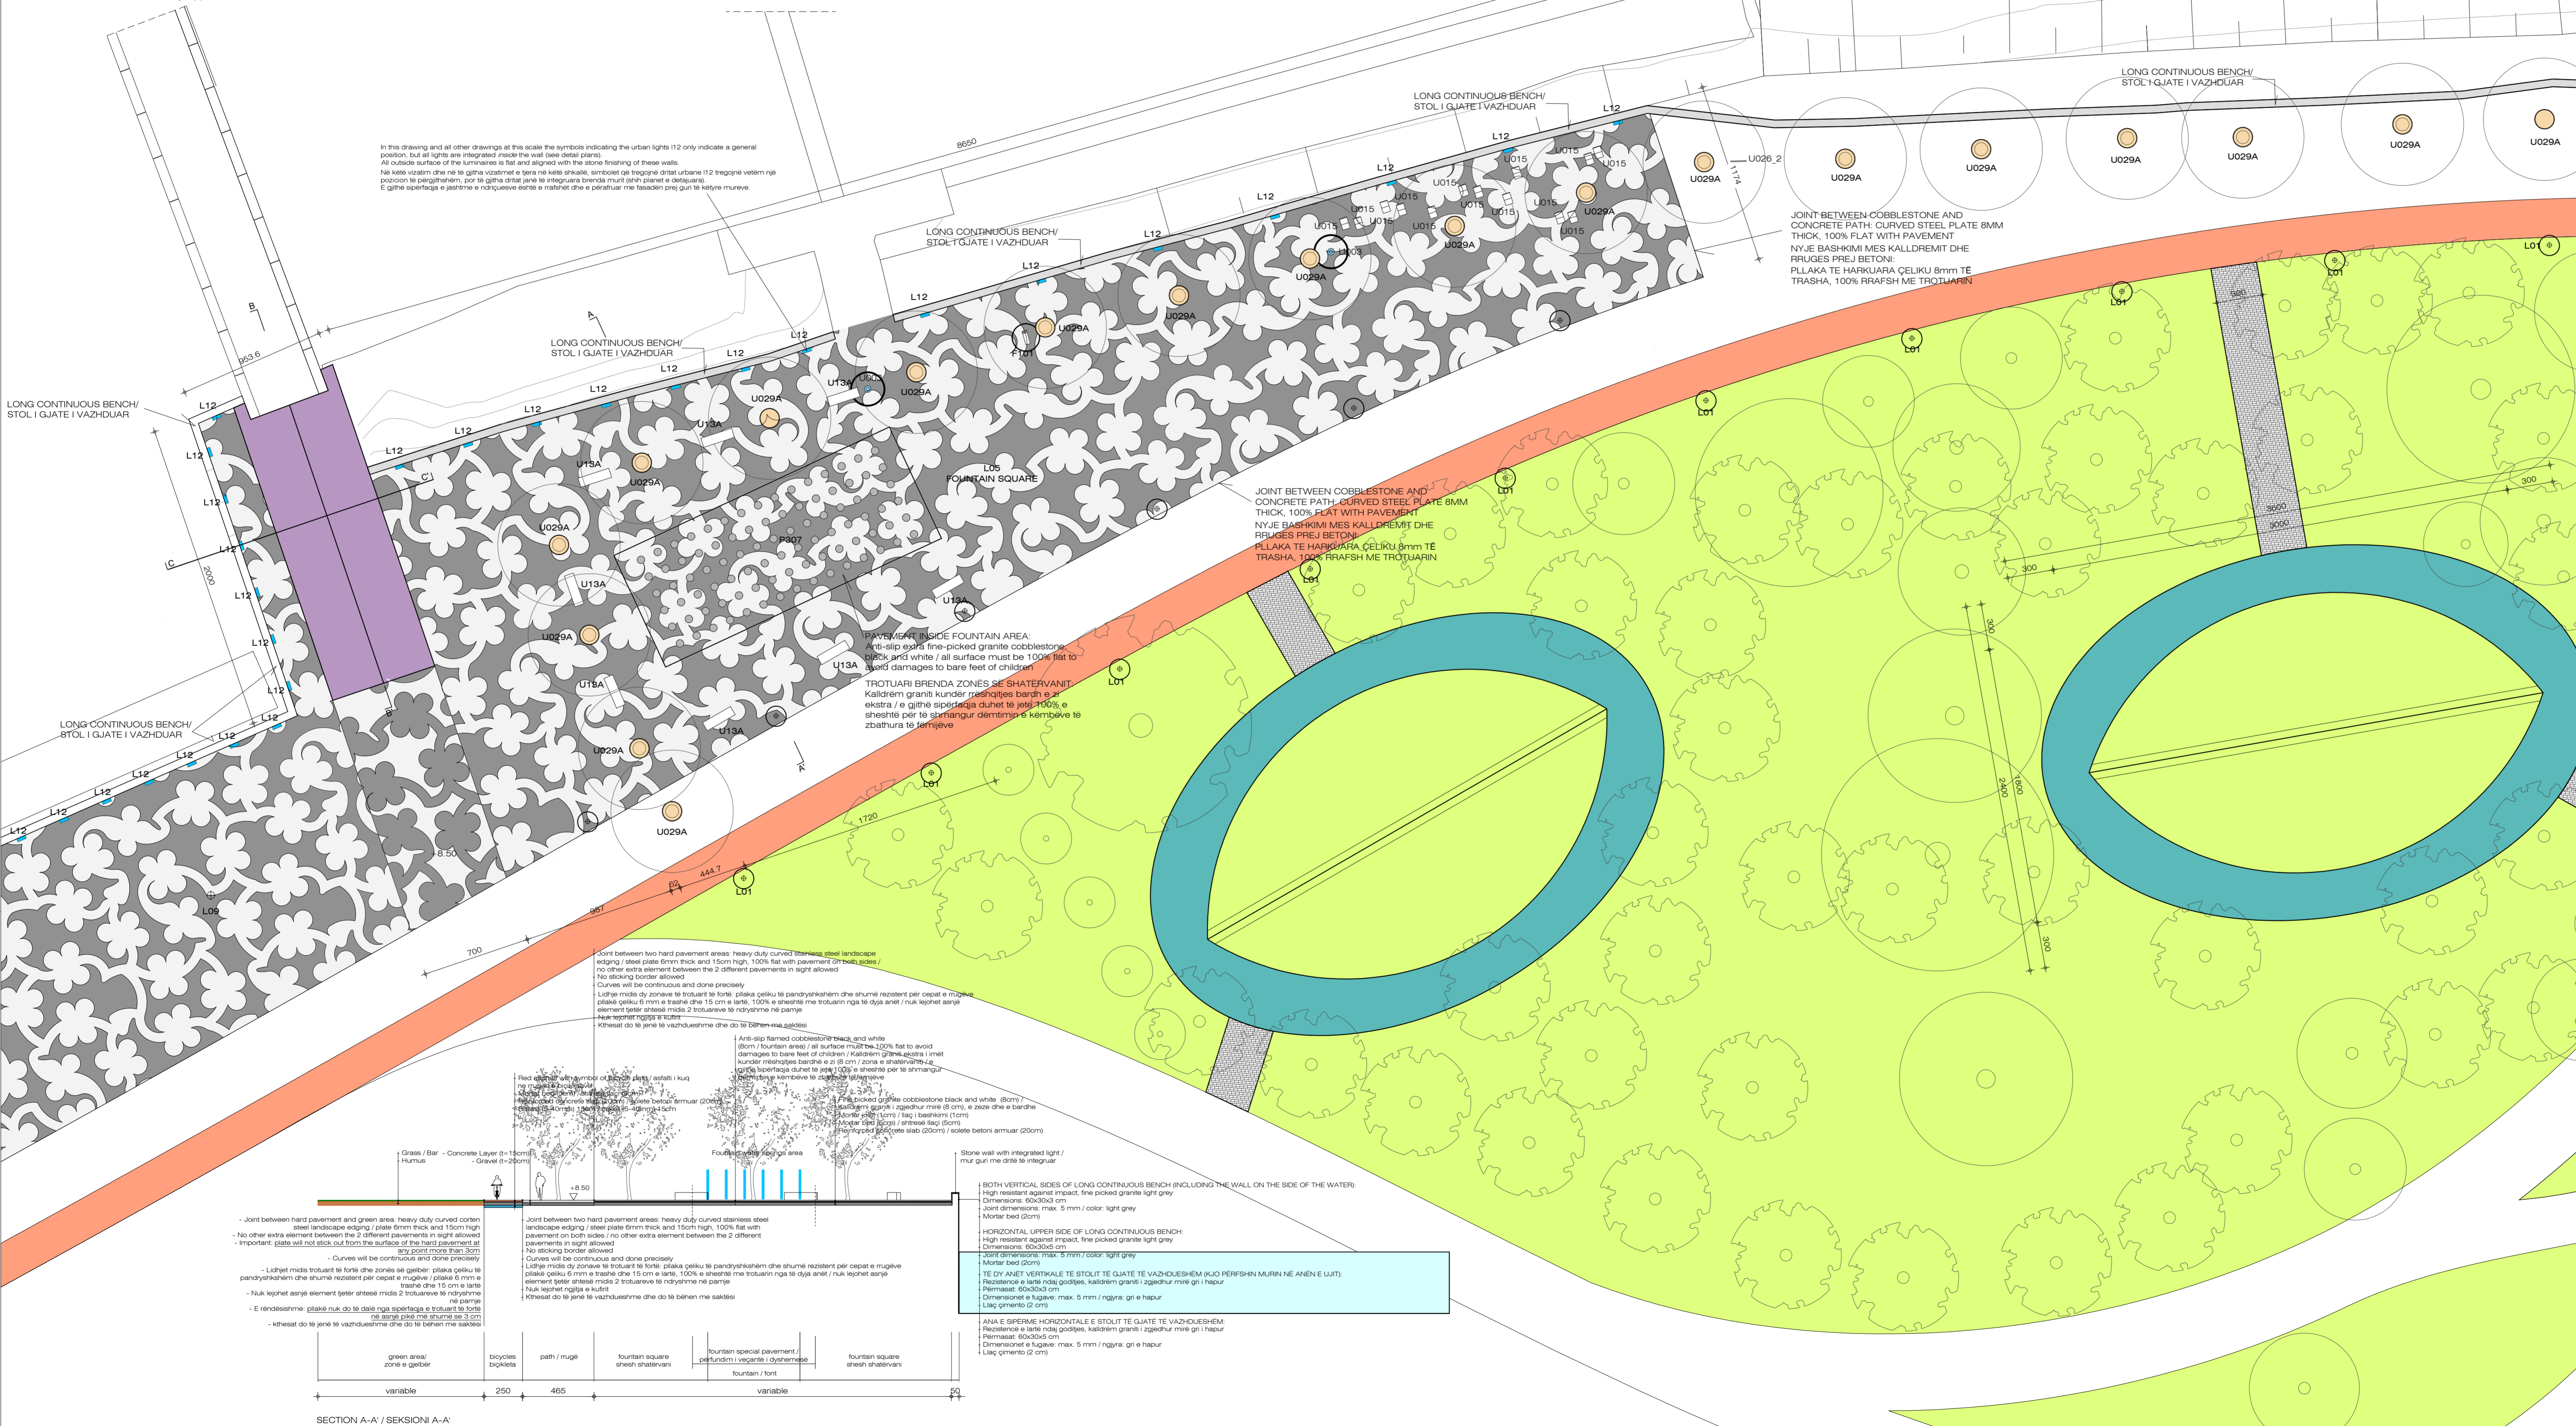

- All existing balustrades, elements of urban furniture, all urban lights, floors, walls or any other visible part of the current situation in the area of this project must be 100% removed and replaced by the new design. Mixing of current and new design is not allowed.
- Joints between two hard pavement areas: heavy duty curved stainless steel landscape edging / steel plate 6mm thick and 15cm high, 100% flat with pavement on both sides / no other extra element between the 2 different pavements in sight allowed / no sticking border allowed / curves will be continuous and done precisely
- Joints between hard pavement and green area: heavy duty curved corten steel landscape edging / plate 6mm thick and 15cm high / no other extra element between the 2 different pavements in sight allowed / plate will stick out from the level of the flat pavement 5cm / curves will be continuous and done precisely
- Without exception all manholes (in all kinds of geometries: round, square, etc) in stone areas have to be covered by the stone pavement, no manhole will be visible in these areas.
- Position litter bins: all the litter bins are always located next to another urban element, a bench, a tree or a lighting pole. No litter bin will be placed isolated.
- The precise position of the electrical cabinets is given in this plan. The position of these elements in the engineer's plans is only orientative.

SHENIMET E RENDËSISHME:

- Të gjitha parrmaqet ekzistuese, elementet e mobiljeve urbane, të gjitha dritat urbane, dypshmetat, muret apo qdo pjesë tjetër e dukshme e situatës aktuale në zonën e këtij projekti duhet të hiqen 100% dhe të zëvendësohen me dizajnin e ri. Nuk lejohet përzierja e dizajnit aktual dhe atij të ri.
- Lidhje midis dy zonave të trotuarit të fortë: pllaka çeliku të pandryshkshëm dhe shumë rezistent për cepat e rugeve / pllaka çeliku 6 mm e trashë dhe 15 cm e lartë, 100% e sheshtë me trotuarin nga të dyja anët / nuk lejohet asnjë element tjetër shtesë midis 2 trotuarëve të ndryshme në pamje / nuk lejohet ngjiza e kufirit / kthesat do të jenë të vazhdueshme dhe do të bëhen me saktësi.
- Lidhjet midis trotuarit të fortë dhe zonës së gjelbrës: pllaka çeliku të pandryshkshëm dhe shumë rezistent për cepat e rugeve / pllaka 6 mm e trashë dhe 15 cm e lartë / nuk lejohet asnjë element tjetër shtesë midis 2 trotuarëve të ndryshme në pamje / pllaka do të dalë jashtë nga niveli i trotuarit të sheshtë 5 cm / kthesat do të jenë të vazhdueshme dhe do të bëhen me saktësi.
- Pa përjashtim të gjitha pusëtat (në të gjitha llojet e geometrive: katror, etj) në zonat e gurta duhet të mbulohen nga trotuarit prej guri. Asnjë pusëtat nuk do të jetë e dukshme në këto zona.
- Pozicioni i koshet e mbeturinave: të gjithë koshat e mbeturinave janë gjithmonë pranë një elementi tjetër urban, një stoli, një pemë ose një shtyllë ndriçimi. Asnjë kosh mbeturinash nuk do të vendoset i izoluar.
- Pozicioni i saktë i kabineve elektrike është dhënë në këtë plan. Pozicioni i këtyre elementeve në planin elektrik është vetëm orientues.

ALL current pavements and all urban elements must be replaced without exception by the new design. Të gjitha rruget aktuale dhe të gjithë elementet urbane duhet të ndryshohen pa përjashtim nga dizajni i ri.

- Compacted red gravel / Zhavorr i kompaktuar i kuq
- Compacted light grey gravel / Zhavorr i kompaktuar gjelbër e i lehtë
- Anti-slip extra fine-picked granite cobblestone black and white (8cm / fountain area) / all surface must be 100% flat to avoid damages to bare feet of children / Kallidrim granit i zgjedhur imit në të gjitha sipërfaqet vertikale.
- Fine picked granite cobblestone black and white (8cm / central axis) / Kallidrim granit i zgjedhur mirë (8 cm), e zezë dhe e bardhë (gjithe sipërfaqja duhet të jetë 100% e sheshtë për të shmangur dëmtimin e këmbëve të zbatuara të fëmijëve)
- Granite stone: anti-slip flamed granite on pavement areas and fine-picked granite in all vertical surfaces / Guri i granitit: graniti i ndezur kundër rreshqesjeve në zonat e trotuarit dhe graniti i zgjedhur imit në të gjitha sipërfaqet vertikale.
- Dimensions / Përmasat 600x303 cm
- Red asphalt with symbol of bicycle path / asfalti i kuq në rruget e biçikletave
- Sand / Rëre
- Wood / dru
- New covering vegetation / Mbulim me bimësi të re
- Hard outdoor surface for sports: Synthetic Grass on asphalt layer / Shtresa për fush sportive: Bar sintetik mbi shtresë asfalti. Color: green / Ngjyra: jeshile
- Hard outdoor surface for sports: Synthetic Acrylic on asphalt layer / Shtresa për fush sportive: Akriik sintetik mbi shtresë asfalti. Color: pink / Ngjyra: rozë
- Hard outdoor surface for sports: Synthetic Acrylic on asphalt layer / Shtresa për fush sportive: Akriik sintetik mbi shtresë asfalti. Color: blue / Ngjyra: blu
- Blue asphalt / Asfalt blu
- Fine picked granite cobblestone / light grey
- Limestone light grey / Gëlqeror gri i hapur
- Asphalt / asfalto
- Concrete / beton
- Water collector grill / zgare mbledhese e ujerave
- Existing tree / pemë ekzistuese
- New tree / pemë e re
