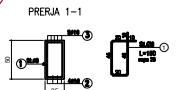

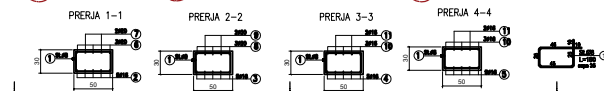

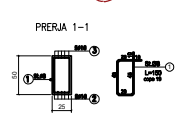

Figure 1 is a plan view of the AKSI J-J section, showing the layout of the bridge and the location of the piers. The diagram includes dimensions for the bridge spans and the piers, and labels for the piers and the bridge sections. The piers are numbered 1 through 7, and the bridge sections are labeled AKSI J-J. The dimensions are given in meters (m) and feet (ft).

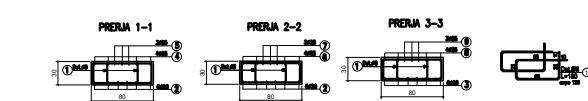

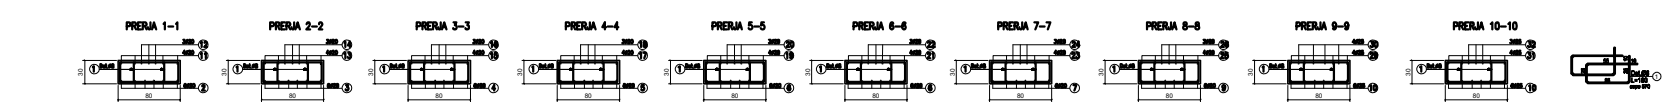

The technical drawing shows a shaft assembly with the following details:

- Top Component:** A pulley or gear labeled "PULLEY" with a diameter of $\phi 70$. It has a width of 50 mm.
- Middle Component:** A component labeled "SHAFT" with a diameter of $\phi 60$. It has a total length of 130 mm. The central section has a hatched pattern indicating a specific material or finish.
- Bottom Component:** A component labeled "BASE" with a diameter of $\phi 80$. It has a width of 50 mm.
- Dimensions:**
 - The distance between the centerlines of the top and middle components is 40 mm.
 - The distance between the centerlines of the middle and bottom components is 70 mm.
 - The total length of the assembly is 250 mm.
