All criteria established for the qualification of bids shall be subject objective and expressed in numbers. In any case, when the criteria are more than one, the significance of price criteria shall not be less than 50 points. The maximum points to be given to a bidder are 100.

The formula of calculation of points in this case is:

Standard Tender Documents

$$P_o = P_{k1} + P_{k2} + P_{k3} + \dots$$

Where:

P_o - are the total points of the evaluated bid

$P_{k1}/P_{k2}/P_{k3}/\dots$ - are the points per each evaluated criterion

The points per each criterion are calculated with the following formula:

$$P_{k1} = V_{min\ k1} \times P_{maxk1} / O_{k1}$$

P_{k1} _____ Points of criteria being evaluated

$V_{min\ k1}$ _____ Lowest value of the criterion being evaluated

P_{maxk1} _____ Maximum points given to the criterion being evaluated

O_{k1} _____ Bid index for the criterion being evaluated

The responsible Authority may set as an evaluation criteria the agreement implementation time frame, the work implementation schedule, according to the following points and methodology:

Selection Criteria	Points
--------------------	--------

(ii) Lowest price	[0 - 30]
--------------------------	-----------------

The economic operator shall describe the bid.

(iii) Quality [0- 10]

Indicators and qualitative analysis of work by defining its elements.

Selection Criteria	Points
--------------------	--------

(i) Delivery time of the contract, implementation schedule	[0 - 30]
---	-----------------

The economic operator must demonstrate the capacity to deliver technical specification requirements and costs into a concrete working plan in order to deliver timely services.

Note; *The responsible authority reserves the right to request clarification from the bidders in case the delivery time is lower than 80% of the term provided by the responsible authority, before issuing a decision on their qualification. In any case, the Bidder is obliged to argument and document in written form the clarifications on the specific element(s) of the delivery time.*

(ii) Lowest price	[0 - 60]
--------------------------	------------------

The economic operator shall describe the bid.

(iii) Quality [0 - 10]

Indicators and qualitative analysis at work by defining its elements as an example but not limited to the quality of the technical proposal regarding the methods used, key personnel, availability of key equipments, site organization, safety, quality assurance, mobilization plan, work schedules and any other activity as may be determined by the employer.

The responsible authority shall specify points for each evaluation criterion according to the type and speciality of the procurement object.

Sqarim: Si kritervlerësimiduhettëpërzgjidhetvetëmnjëriprejopsioneve. Plotësimiitëdyopsioneve e bënprocedurëntëpavlefshme.

Note: Only one of the options shall be chosen as evaluation criteria. Performance of both options makes the procedure invalid.

5.6 Correction of errors and removed parts

5.6.1 The Responsible Authority corrects such errors in the bid that are simply of an arithmetical nature, if the error is found during the assessment of bids. The Responsible Authority immediately notifies the Bidder concerned with a notification in writing/by email on any such rectification and can continue with the correction of the error, provided that the Bidder accepts such communication. If the Bidder refuses the correction proposed, the Bid shall be rejected, without seizure of bid security, if there is one.

5.6.2 Errors in the price calculation shall be rectified by the Responsible Authority as follows:

- a) -if there is any discrepancy between amounts in figures and words, the amounts expressed in words shall prevail, except when the amount in concern relates to an arithmetical error;
- b) if there is any discrepancy between the unit price and the total value obtained by multiplying the unit price and the quantity, the unit price shall prevail and consequently the total sum shall be corrected
- c) if there is any error in the total sum, corresponding to the addition or subtraction of subtotals, the subtotal shall prevail and the total shall be corrected. The amounts rectified in this way shall be binding on the bidder. If the bidder does not accept them, its bid shall be rejected. The Bids with arithmetical errors are rejected when absolute amounts of all corrections are more than $\pm 2\%$ of the economic bid offered.

Abnormally low bids

5.7.1 If the submitted bid results abnormally low in terms of goods offered, the Responsible Authority requires the Bidder concerned to justify the price given. If the Bidder fails to

provide a convincing excuse to the Responsible Authority, the latter is entitled to refuse the offer.

5.7.2 The Bid shall be considered abnormally low:

If two or fewer bids are valid, according to article 56 of PPL, a bid is considered abnormally low when it was lower than 25 percent of the limit fund calculated.

If three or more bids are valid, a bid is considered abnormally low if its value is lower than 85 percent of the average valid bids.

If one or several bids are considered abnormally low, the bid evaluation commission shall request explanations from the bidders, before taking a decision on their qualifications or not, in compliance with Article 56 of Law on Public Procurement.

In any case, the Bidder must provide documents in writing to prove the explanations on the special element(s) of the bid, in compliance with the provisions of Article 56 of Law on Public Procurement.

If three or more bids are valid, the formula to be applied for the abnormally low bid is the following:

O – Bid

M_O – Average of valid bids

n – Number of valid bids

Z_M – Possible discount

$$M_O = O_1 + O_2 + O_3 + \dots O_n / n$$

$$Z_M = 85 \% M_O$$

The value of bid is evaluated as <ZM....., as a consequence the bid is abnormally low

In case the most economically advantageous bid is set as selection criterion, an examination whether bids are abnormally low shall be made only if the bid classified with the highest points has economic bid with the lowest value

5.7 Administrative complaint available to Economic Operators pursuant to Article 42 of the Normative Act No. 9, dated 16.12.2019 "On coping with natural disaster consequences"
