The segment of **Rehabilitation of road “spille, Guri i Leumar” To “Hauzi i Vilebashtoves** is the entrance gates of Spille Beach, which in terms of layers is in good condition, but intervention is needed in the systemization of sidewalks, cubes, lighting and its expansion according to the planned urban plan, etc. The entrance road is also a connecting part with the coast and is in a very depreciated condition, no investments have been made in them for years, despite the constant concern of residents and local institutions.
