  EP15: Post for iWay optical compartment Ø170 mm - h = 529 mm  
EP15: Post for iWay optical compartment Ø170 mm - h = 529 mm

**Përshkrim teknik\ Technical description**  
Shtylla prej alumini me bojë pluhuri dhe dy shufra inox ankorohet me bazë çeliku të galvanizuar. Njësia optike LED ka lente polikarbonati, kapak dhe elementë alumini të trajtuar me guarnicione silikon. Pajisja ka optikë asimetrike 180°, kablo daljeje dhe kërkon lidhës IP të porositshëm veçmas.  
The powder-coated aluminum pole and two stainless steel rods are anchored to a galvanized steel base. The LED optical unit has a polycarbonate lens, a cover and aluminum elements treated with silicone gaskets. The device has 180° asymmetric optics, an output cable and requires IP connectors to be ordered separately.

EP17: Shtyllë për ndarjen optike iWay Ø170 mm - lartësi = 919 mm  
EP17: Post for iWay optical compartment Ø170 mm - h = 919 mm

**Përshkrim teknik\ Technical description**  
Shtylla cilindrike prej alumini të ekstruduar ankorohet në tokë me bazë alumini të derdhur dhe ka shufra të brendshme inoksi. Ajo është e lyer me astar dhe bojë akrilike të tharë në 150°C, ndërsa vidat janë prej çeliku inox A2. Prozhektori LED ka optikë asimetrike 180°, trup alumini me lente polikarbonati dhe kërkon lidhës IP të porositshëm veçmas.  
The cylindrical extruded aluminum pole is anchored to the ground with a cast aluminum base and has stainless steel internal rods. It is painted with primer and acrylic paint dried at 150°C, while the screws are made of A2 stainless steel. The LED floodlight has 180° asymmetric optics, an aluminum body with polycarbonate lens and requires IP connectors to be ordered separately.

Ndricules Tipologji Ekzistuese  
Existing Lighting Typology

**Përshkrim i produktit\ Product description**  
Ndriçuesi i propozuar është një shtyllë ndriçimi me lartësi totale rreth 4 metrash, me trup të kombinuar metalik dhe difuzor të sipërm në ngjyrë të hapur për shpërndarje uniforme të dritës. Dizajni i tij është minimalist dhe bashkëkohor, duke u përshtatur plotësisht me estetikën e pedonales ekzistuese në qytetin e Durrësit.

The high-rise luminaire is a lighting pole with a total body of about 4 meters, with a combined metal body and a light-colored upper diffuser for a uniform light. Its design is minimalist and contemporary, fitting in with the aesthetics of the existing pedestrian area in the city of Durrës.

                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |                    | <u>Design group\Grupi i                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |                    | <u>Sheet
