Closing Date:	08/08/2024 10:00 (London Time)

Invitation for Tenders Single

1. Funding Details

The above named client intends to use part of the proceeds of a loan from/grant administered by the European Bank for Reconstruction and Development (the Bank) towards the cost of the above named contract(s).

Additional financing information:

The Albania Infrastructure and Tourism-Enabling Project “the Project” is financed by the European Union through technical assistance and investments grants for a total amount of EUR 40 million, and by complementary sovereign loan facility provided by the EBRD to the Government of Albania. The Project is implemented by the Albanian Development Fund as executing agency (the “Client”) and the European Bank for Reconstruction and Development (the “Bank”). The EU grants are identified by the EU in close cooperation with the Albanian Development Fund. Grant Recipient is: Republic of Albania.

2. Information on the Procurement Exercise

Contracts will be subject to the Bank’s Procurement Policies and Rules and are open for participation for firms from any country, unless otherwise specified in the procurement documents.

The type of contract and the procurement method is stated above. A full description of the procurement exercise is available within the documentation and is available free of charge in ECEPP.

The documentation will include such information as: detailed technical and financial requirements; any information on lots; the expected outcome; eligibility and qualification requirements; contract start date; planned contract duration; any response requirements; any other relevant information.

This procurement exercise will be conducted using the EBRD Client E-Procurement Portal (ECEPP). Prospective participants can access the procurement exercise by clicking on the below link or on the ‘Access Opportunity’ button (if viewing this notice on ECEPP). Registered participants may log in and access the documentation immediately and unregistered participants may do so after completing a brief registration:

3. Other Information

The Site is located inside Shkodra Municipality.

Geographically this area extends from the Buna bridge in the south, continues along the national road of Shkodra in the direction of the city to the bypass roundabout in the east and follows the bypass to the point of union with the old bypass in the north. To the west it is bordered by the waters of the Buna River and Lake Shkodra.

The Project area is very sparsely populated. Natural soil occupies the largest percentage. Its functionality is divided into two parts:

- South part, in which there is a casual park, some businesses and a promenade.
- North part, otherwise known as the part between two bypasses, low natural soil.

Wetland Park is a special area located at the north of the site. This strategic area protects the wetland of Shkodra lake allowing its flooding in rainy seasons. At the same time, Wetland Park provides recreational functions for the citizens compatible with the flooding of the area such as walking and resting areas with views over the wetlands and sports facilities. Wetland Park has enormous strategic importance for Shkodra because it is a pioneer climate adapted project in Albania that regulates the flooding. This green buffer can also become a model for the sustainable development of the city in contact with Shkodra lake.

4. Client Address

The client's address is for information only. To register interest, access the documentation using the available links.

Participants must use the ECEPP message centre for communication with the client.
