2.4 Type of Framework Agreement

With one Economic Operator **X**

With several Economic Operators

All terms are defined Yes **X** No

In the Framework Agreement with 1 Economic Operator, where all conditions are specified, give reasons for selecting this type of Framework Agreement

This procedure has been chosen pursuant to Article 35/1 of Law no. 9643 dated 20.11.2006 “On Public Procurement” (as amended), Article 43 (Purpose) and point 1 / a) of Article 47 (Types of framework agreement) of DCM no. 914 dated 29.12.2014 “On Public Procurement Rules” (as amended), for the purpose of covering the required service at all times based on the specifics of the CA (The only Tertiary Health Center in the Republic of Albania), the provision of this service by some economic operator is not favorable as it creates difficulties for the contracting authority for timely service coverage. Regarding the procurement of this facility, all the main terms of the framework agreement such as technical specifications / items, etc. are specified. Changing the EO in case this agreement was to be concluded with some EO (consequently where not all conditions would be set) would cause additional costs, uncertainty and confusion for the successful EO and the CA itself, which would be associated with increased delivery times (maintenance service provision) given that the need for medical equipment maintenance is 24/7 throughout all the year. This is due to the need for continuous and timely treatment of patients with disability. The connection of the Framework Agreement with a single EO would be accompanied by the latter's well-organized organization of service provision in a timely and uninterrupted manner. Also the security for the contracts that are foreseen to be signed enables the EO to reduce the bidding costs. The framework agreement with several EOs where not all conditions are specified is not considered a contract. This means that CAs do not have binding mechanisms for the successful EOs to guarantee their participation in mini-competitions and consequently in the conclusion of contracts after their development. Uncertainty and delays can lead to failures in providing a timely CA maintenance service, having a direct impact on the patient and beyond. In order to guarantee the maintenance within the set deadlines, the Framework Agreement with a single winning EO would guarantee the security of service coverage under the set conditions and within the required deadlines by bringing stability in the management of the contracts and the needs of the CA, The technical and organizational aspect requires only one economic operator to perform the service.

2.5 Number of economic operators with which the Framework Agreement will conclude: 1 economic operator (Please define the maximum number of economic operators with whom the Framework Agreement shall be concluded).

2.6	The terms to be followed in case of reopening of the bidding process and/or potential use of electronic bidding	There will be no reopening of the competition. Contracts will be concluded as per the requirements of the Contracting Authority, with the successful economic operator, which will offer the lowest price (lowest unit price multiplier) required.

II. INSTRUCTIONS FOR ECONOMIC OPERATORS

Section 1. Bid Drafting

- 1.1 Economic Operators shall draft their bids, in compliance with the requirements provided under TDs herein. The bids that are not prepared according to these TDs shall be refused as non-acceptable.
- 1.2 All costs for the preparation, drafting and sending of the bid shall be borne by the bidding economic operator. The Contracting Authority is not liable for such costs.
- 1.3 In procurement procedures carried out by mail, the original bid shall be typed or written in indelible ink. All sheets must be bonded together and numbered. All pages of the bid, except printed non-changeable papers, shall bear the initials of or signed by the Authorized Person(s). Any change in the bid must be readable and signed by the Authorized Persons.
- 1.4 In the case of bids submitted by a consortium of economic operators, the bid shall be accompanied with the Power of Attorney/written authorization for the Authorized Persons representing the consortium during the procurement procedure.
- 1.5 **The following documents shall be included in the bid:**

a) Bid Submission Form, filled in **according to Annex 1 of TDs.**

b) Documents regarding object of procurement (*designs, catalogues, samples etc.*)

_____,
_____,
_____.

c) Documents and certifications required in **Annex 7**

d) (Optional) alternative technical bid (if provided)

An Economic Operator shall submit only one offer.

- 1.6 Confidentiality according to Article 25 of the Law on Public Procurement (LPP).
- 1.7 In procurement procedures carried out by mail, Economic Operators shall submit only the original bid enclosed in a non-transparent, sealed, stamped envelope and signed with the name and address of the Bidder and marked: “Bid for carrying of _____ services; Notification No _____
“DO NOT OPEN, EXCEPT IN PRESENCE OF THE TENDER EVALUATION COMMISSION, AND NOT BEFORE dd/mm /yyyy _____ at _____”

When bids are required to be submitted by email, the Economic Operators shall send the bid by email through the PPA’s official website, www.app.gov.al.

- 1.8 In procurement procedures carried out by mail, bidders can modify or withdraw their bids, provided that such modification or withdrawal is done before the expiry of deadline for submission of bids. Both, modification and withdrawal shall be communicated in writing to Contracting Authority before the deadline for submission of bids. The envelope enclosing the statement of bidders should be marked: **“MODIFICATION OF BID”** or **“WITHDRAWAL OF BID”**.

When bids are required to be submitted by email, the Bidder can, at any time, modify the bid, until the expiry of bid submission deadline, and it not necessary to communicate with the Contracting Authority, because such actions are performed in his account on PPA’s official website at www.app.gov.al.

Section 2 Calculation of economic offer

- 2.1 The Economic Operator shall fill in the Bid Submission Form, attached to these TDs, defining the services to be carried on, the quantity and price thereof.
- 2.2 All prices must be given in Albanian Currency (ALL), including applicable taxes, and excluding VAT. If prices are given in foreign currency, they shall be changed in Albanian Lek according to the Bank of Albania official exchange rate on the date the contract notification was sent for publication and shall be kept in that rate until the expiration of Bid Validity Period.
- 2.3 The bidder shall include in the Bid Submission Form, the total bid price of all services, excluding VAT. The VAT amount, where appropriate, is added to the given price and consists in the total bid value.
- 2.4. In case of a Framework Agreement which does NOT defines all the terms, prices for the contracts under the Framework Agreement are not fixed; they are subject to change following mini-bidding among economic operators, parties to the framework agreement.
- 2.5 The Bid security, if required, shall be submitted together with the bid before the expiry of bid submission deadline. Noncompliance with the bid security requirements shall result in the disqualification of the offer.
- 2.6 Bid security shall be in any of the following forms:
- a) Bank guarantee
 - b) Bond

The Bid Security Form shall be signed by the issuing party (Bank, insurance company, etc.) and shall be submitted together with the bid before opening of bids, otherwise the bid will be rejected.

The above mentioned documents are valid during the period of bid validity. In case a Bid

Security is in the form of a bank guarantee, the Contracting Authority returns it back within 15 days from the signing of Contract.

2.7 **Bid Validity Period**

Bid Validity Period starts at the moment of bid opening. In any case, at least 5 days before the deadline for the bid validity, the Contracting Authority can require in writing the Bidder to extend the validity period until a given date. The Bidder may reject such request in writing without losing the right to compensation of the bid security, if any. The Bidder who agrees to extend the bid validity period shall notify in writing the Contracting Authority and provides an extended bid security, is relevant. The Bid shall not be modified. In case a Bidder, following a Contracting Authority requests to extend the bid validity period, does not respond, or accept, or submit an extended bid insurance, when due, then the Contracting Authority shall reject the bid.

2.8 Unlawful actions are considered under Article 26 of Law on Public Procurement.

Section 3. Bid Evaluation

3.1 Selection criteria

(Option 1) Lowest price of qualified bid.

The contract shall be awarded to the Bidder providing the lowest price of bid.

(Option 2) Most economically advantageous bid.

For qualification criteria, it shall be clearly defined the significance of each criterion, i.e. how many points each criterion shall have and how are the points to be calculated for the consecutive bidders.

All criteria established for the qualification of bids shall be subject objective and expressed in numbers. In any case, when the criteria are more than one, the significance of price criteria shall not be less than 50 points. The maximum points to be given to a bidder are 100.

The formula of calculation of points in this case is:

$$Po = Pk1 + Pk2 + Pk3 + \dots$$

Where:

Po - are the total points of the evaluated bid

Pk1/Pk2/Pk3/...- are the points per each evaluated criterion

The points per each criterion are calculated with the following formula:

$$Pk1 = V_{min\ k1} \times P_{max\ k1} / Ok1$$

Pk1 _____ Points of criteria being evaluated

Vmin k1 _____ Lowest value of the criterion being evaluated

Pmaxk1	Maximum points given to the criterion being evaluated
Ok1	Bid index for the criterion being evaluated

Note

Only one of the options shall be chosen as evaluation criteria. Performance of both options makes the procedure invalid.

In the case of the procurement of the framework agreement, when the subject of this agreement is international air transport tickets, instead of the price shall be used the margin of profit expressed in percentage.

3.2 Correction of errors and removed parts

3.2.1 The Contracting Authority corrects such errors in the bid that are simply of an arithmetical nature, if the error is found during the assessment of bids. The Contracting Authority immediately notifies the Bidder concerned with a notification in writing/by email on any such rectification and can continue with the correction of the error, provided that the Bidder accepts such communication. If the Bidder refuses the correction proposed, the Bid shall be rejected, without seizure of bid security, if there is one.

3.2.2 Errors in the price calculation shall be rectified by the Contracting Authority as follows:

- if there is any discrepancy between amounts in figures and words, the amounts expressed in words shall prevail, except when the amount in concern relates to an arithmetical error;

- if there is any discrepancy between the unit price and the total value obtained by multiplying the unit price and the quantity, the unit price shall prevail and consequently the total sum shall be corrected; if there is any error in the total sum, corresponding to the addition or subtraction of subtotals, the subtotal shall prevail and the total shall be corrected. The amounts rectified in this way shall be binding on the bidder. If the bidder does not accept them, its bid shall be rejected. *The Bids with arithmetical errors are rejected when absolute amounts of all corrections are more than $\pm 2\%$ of the economic bid offered.*

3.3 Abnormally low bids

3.3.1 If the submitted bid results abnormally low in terms of goods offered, the Contracting Authority requires the Bidder concerned to justify the price given. If the Bidder fails to provide a convincing excuse to the Contracting Authority, the latter is entitled to refuse the offer.

3.3.2 The bid shall be considered abnormally low according the provisions of Article 66, Chapter VII of Public Procurement Rules.

If two or fewer bids are valid, according to article 56 of PPL, a bid is considered

abnormally low when it was lower than 25 percent of the limit fund calculated.

If three or more bids are valid, a bid is considered abnormally low if its value is lower than 85 percent of the average valid bids, in compliance with Article 56 of Law on Public Procurement.

If one or several bids are considered abnormally low, the bid evaluation commission shall request explanations from the bidders, before taking a decision on their qualifications or not, in compliance with Article 56 of Law on Public Procurement.

In any case, the Bidder must provide documents in writing to prove the explanations on the special element(s) of the bid, in compliance with the provisions of Article 56 of Law on Public Procurement.

If three or more bids are valid, the formula to be applied for the abnormally low bid is the following:

O – Bid
M_O – Average of valid bids
n – Number of valid bids
Z_M – Possible discount

$$M_O = O_1 + O_2 + O_3 + \dots O_n / n$$

$$Z_M = 85 \% M_o$$

The value of bid is evaluated as <Z_M....., as a consequence the bid is abnormally low

In case the most economically advantageous bid is set as selection criterion, an examination whether bids are abnormally low shall be made only if the bid classified with the highest points has economic bid with the lowest value.

- 3.4.** Economic Operators can file an administrative complaint under Article 63 of Law on Public Procurement.

Section 4 Signing of Contract

4.1 Notification of the winner

The Contracting Authority notifies the winning Bidder, by sending the Notification of the winner, pursuant to **Annex 14**. A copy of such notice is published in the Public Notices Bulletin, as provided under Article 58 of Law on Public Procurement.

4.2 Contract Insurance

Standard Tender Documents

- 4.2.1 The Contracting Authority demands an insurance for the contract's execution. The amount of such insurance shall be the 10% of the contract's value. The Contract's Insurance Form, according to **Annex 20 of TDs**, shall be signed and submitted before the signing of the contract.
- 4.2.2 Insurance for the contract's execution can be submitted in any of the following forms:
- i. Bank guarantee
 - ii. Insurance guarantee

Such form is not used by the contracting authorities in case of sectorial procurement contracts.

4.3 Notification of the signed contract

According the Public Procurement Rules, following the signing of contract, the Contracting Authority shall send to PPA a notification to be published in the Public Notices Bulletin.

Note: The contracting authorities shall not make any modification in the tender documents from section 1 to 4.

DECLARATION
On conflict of interest

Declaration issued by the economic operator participating in the public procurement procedure, to be held on _____ by Contracting Authority _____ with object _____ and limit fund _____.

Conflict of interest is a situation of conflict between public duty and private interest of an official, in which he/she has direct or indirect private interests affecting, or that can effect or that it seems that might have effect on the unjust performance of public tasks and duties.

In implementation of Article 21, clause 1, Law no. 9367, date 07.04.2005, the categories of officials as provided under Chapter III, Section II, that are absolutely forbidden to directly or indirectly benefit from the signing contracts between a party and the public institution are:

- President of Republic, Prime Minister, Deputy Prime Minister, Ministers, or Deputy Ministers, Members of Parliament, Judges of Constitutional Court, Judges of High Court, the Head of High State Audit, General Prosecutor, Judges and Prosecutors at the level of the Court of First Instance and Court of Appeals, the Ombudsman, Members of the Central Election Commission, Members of High Council of Justice, General Inspector of the High Inspectorate of Declaration and Audit of Assets and Conflict of Interest, Members of Regulatory Entities (Bank of Albania Supervision Council, including Governor and Deputy Governor; competition; telecommunication; electricity; water supply; insurance; bonds; media authorities), General Secretaries of Central Institutions as well as every public official in any public institution whose position is equivalent to that of the General Director, heads of public administration bodies that are not part of civil service.

The middle-ranked civil servants, under article 31, and officials covered by Article 32 of Chapter III, section 2 of this Law, the prohibition of clause 1 of this article, on grounds of private interests of official, as stipulated herein, shall be applied only if case of contracts within the institution's scope and territory and the institution's jurisdiction, where the official works. This prohibition is applicable also when party to the contract is an institution under the dependency thereof.

When the official is a mayor or deputy mayor of a municipality or commune, or the chairman of a regional council, member of the respective council, or a high management official of a local government unit, the prohibition due to private interests of the official, specified herein, is applicable only in the case of entering into contracts, if any, with the municipality, commune or

Standard Tender Documents

region where the official exercises such duty. This prohibition is applicable also when party to the contract is a public institution at the dependency of this unit. (Article 21, clause 2, Law No.9367, date 07.4.2005).

The prohibitions provided for under Article 21 clauses 1, 2 of Law no. 9367, date 07.04.2005, with the respective exemptions, are applicable to the same extent also to the persons related with the official, i.e. **spouse, cohabitant, adult children and parents of the official and of the spouse.**

I, the undersigned _____, in the quality of representative of legal person _____ declare that under my personal responsibility:

I am aware of the requirements and prohibitions provided under Law No. 9367, date 07.04.2005 “On the prevention of conflicts of interest in the exercise of public functions” as amended, and secondary legislation adopted pursuant thereto by the High Inspectorate of Declaration and Audit of Assets, and also the Law no. 9643, date 20.11.2006 “On Public Procurement”, as amended.

In compliance thereof, I declare herein that no public official, as defined in **Chapter III, Section II** of the Law no. 9367, date 07.04.2005, and in this declaration, has any private interests, directly or indirectly, with the legal person I represent herein.

Notes:

- The contracting authority has the right to remove certain equipment from the maintenance regime and this will be accepted by the economic operator unconditionally.

In the final table, no. The sequences that are marked with an asterisk () and (***) have the following explanations:**

- ** As a consequence of the application of the PPP project in the medical laboratories of the Republic of Albania, the service contract may be terminated unfulfilled for one or all of the laboratory equipment.
- *** Effects of contract start for equipment that are under maintenance contracts apply on their expiry date.
- *** – Due to existing maintenance contracts, for the equipment with inventory no. 21197 and 21854 listed in table with ordinal no. 265 and 266, in the event that the procurement procedure has been completed and the winner has been announced, the effects of the commencement of the contract may not commence before August 31, 2020.
- *** – Due to existing maintenance contracts, for the equipment with inventory no. 20705, 20250, 21734 listed in table with ordinal no. 262, 263 and 264, in the event that the procurement procedure has been completed and the winner has been announced, the effects of the commencement of the contract may not commence before April 12, 2020.

The needs for the functional/structural organization of the contracting operator and the full equipment maintenance service are grouped into several categories:

- Structural organization and tools needed to manage maintenance processes.
- Preventive/preventive maintenance of medical equipment,
- Inspection of medical equipment safety,
- Corrective maintenance of medical equipment
- Supply of spare parts and accessories,

Structural organization and tools needed to manage maintenance processes:

- The Bidding Operator should have an organizational structure for the maintenance of standardized medical equipment compatible with the specifications of the Medical Equipment Directive (MDD 93/42 / EEC).
- The contracted company must have technical/engineering staff authorized by the manufacturer and/or certified according to MDD Directive 93/42/EEC, and sufficient to provide quality and safe maintenance throughout the maintenance period as well as in order to cover defects that may occur at the same time. Only this staff will perform the corrective and calibration interventions of medical devices.
- The operator must have more than one contact person for reporting defects and other contacts to whom the Contracting Authority should be notified (*telephone and email*).
- The operator must have as an indispensable means of his operation a system of management of medical equipment and their maintenance.
- This management system should have the necessary functionalities as follows:
 - a) To register all medical devices according to the registration model approved by the MHSP (*Ministry of Health and Social Protection*)
 - b) Manage, anticipate and optimize maintenance and inspection planning of medical devices
 - c) Document and archive any preventive, remedial, or inspection maintenance of medical equipment
 - d) Administer and anticipate needs and orders for spare parts or accessories needed for preventive and corrective maintenance
 - e) Enable the creation of reports with key indicators for the Contracting Authority regarding the performance / performance of medical equipment
 - f) To make cost estimates and report them according to the needs of the Contracting Authority
 - g) Report the situation in real time and guarantee Contracting Authority access to equipment status, use, costs, etc.
 - h) Reflect and assist in the planning and reallocation of medical equipment to other services

Preventive/preventative maintenance of medical equipment:

- Preventive or preventative maintenance as per manufacturer's instructions means: For equipment subject to contract the Operator shall perform full control and maintenance service as provided by the manufacturer, for each equipment and its components, through trained engineers providing systematic inspection, testing , measuring, repairing and replacing damaged or worn parts to identify and correct problems identified before they occur or develop into major problems in order to prevent equipment failures and malfunctions.
- The operator should plan preventive maintenance along with the CES (*Clinical Engineering Sector*) staff and user. The preventive maintenance should be performed according to procedures and at intervals specified by the manufacturer.
- At the conclusion of any preventive maintenance performed, the contracting company shall maintain a service report on the preventive maintenance and control of each of the

above. The service report must be signed by the Service representative where the equipment is located, the IBM representative and the Engineer / Technician of the company who will perform the maintenance.

- The contracted operator must appear every month to verify the normal operation of the equipment by means of a factual record signed by the NIS specialists, users and engineers of the firm.
- The Contracting Authority has the right to request verifications other than those planned, in exceptional cases, on specific conditions or as per the particular needs and the Contractor is obliged to accept these requirements unconditionally.

Inspection of medical equipment safety:

- The operator must carry out a safety inspection according to IEC 62353 international electrical standard specified by the Medical Devices Directive (MDD 93/42 / EEC) or the manufacturer, for any medical device and its components, through trained and certified staff.
- The operator must perform visual inspection, testing and measurement with calibrated equipment.
- The operator should plan to perform these tests in collaboration with the Clinical Engineering Sector staff based on the manufacturer's specifications.
- At the end of each safety inspection a report should be drawn up and signed by the specialists of the Sector of Clinical Engineering and the Engineer / Technician of the company conducting the test. This report should be stored in the management system as part of the device maintenance history.
- After each security test on the device, an indication of the safety status of the device must be affixed.
- The Contracting Authority has the right to request verifications other than those planned, in exceptional cases, on specific conditions or as per the particular needs and the Contractor is obliged to accept these requirements unconditionally.

Corrective Maintenance of Medical Devices:

- The contractor company shall perform the maintenance, repair and replacement of any defects / potential / long-term contractual defects on the equipment and all accessories connected to the equipment so that it is in medical staff service such as: printers, cartridges, probes, cufflinks, pulse oximeters, electrodes, ups, blood heaters, developers, film washers, etc., and directly affect the operation of the equipment within the standards specified by the manufacturer.
- The contracting company must appear to check, verify the defect within 24 hours of receiving notifications of normal malfunction, various problems or equipment malfunctions.
- In the event that no spare parts are required, the fault correction must be completed no later than 24 hours, or a maximum of 48 hours after receiving the notification.
- If it is found that replacement parts are needed to correct a defect, the operator must supply and replace spare parts, repair the defect and restore the equipment to normal

working condition within 7 calendar days of the date of the drafting of the protocol for the need of spare parts signed by the CES (*Clinical Engineering Sector*) specialist, user and contractor engineer.

- After repairs or interventions performed, the contracting company must perform calibration, maintenance and verification of parameters as recommended by the manufacturer to ensure the normal operation of the equipment.
- After any repair, replacement of spare parts or accessories, the equipment should be in full working order.
- After each repair or replacement of parts, a record or service report should be kept describing the detail of the fault / problem, parts installed if any, calibrations and test of function. The service report must be signed by the person using the device and / or the Chief of Service where the equipment is located, the NIS specialist and the maintenance company technician or engineer contracted.
- The Contracting Company will only allow for once for each equipment group equipment the movement, removal, dismantling and dismantling if required by the Contracting Authority.

Supply of spare parts and accessories:

- Spare parts must be new, unused and compatible with the equipment.
- Be original or from other certified manufacturers.
- Be CE certified according to the standards and directives approved in the European market.
- When applicable, spare parts and accessories must have accompanying installation manual as recommended by the manufacturer. A copy of this notice shall be submitted to the representative of the Contracting Authority.
- Parts must have no less than 1 (one) year guarantee including all their possible defects.

Required service:

Structural organization and tools needed to manage maintenance processes:

- The Bidding Operator should have an organizational structure for the maintenance of standardized medical equipment compatible with the specifications of the Medical Equipment Directive (MDD 93/42 / EEC).
- The contracted company must have technical/engineering staff authorized by the manufacturer and/or certified according to MDD Directive 93/42/EEC, and sufficient to provide quality and safe maintenance throughout the maintenance period as well as in order to cover defects that may occur at the same time. Only this staff will perform the corrective and calibration interventions of medical devices.
- The operator must have more than one contact person for reporting defects and other contacts to whom the Contracting Authority should be notified (*telephone and email*).
- The operator must have as an indispensable means of his operation a system of management of medical equipment and their maintenance.
- This management system should have the necessary functionalities as follows:
 - a) To register all medical devices according to the registration model approved by the MHSP (*Ministry of Health and Social Protection*)
 - b) Manage, anticipate and optimize maintenance and inspection planning of medical devices
 - c) Document and archive any preventive, remedial, or inspection maintenance of medical equipment
 - d) Administer and anticipate needs and orders for spare parts or accessories needed for preventive and corrective maintenance
 - e) Enable the creation of reports with key indicators for the Contracting Authority regarding the performance / performance of medical equipment
 - f) To make cost estimates and report them according to the needs of the Contracting Authority
 - g) Report the situation in real time and guarantee Contracting Authority access to equipment status, use, costs, etc.
 - h) Reflect and assist in the planning and reallocation of medical equipment to other services

Preventive/preventative maintenance of medical equipment:

- Preventive or preventative maintenance as per manufacturer's instructions means: For equipment subject to contract the Operator shall perform full control and maintenance service as provided by the manufacturer, for each equipment and its components, through trained engineers providing systematic inspection, testing , measuring, repairing and replacing damaged or worn parts to identify and correct problems identified before they occur or develop into major problems in order to prevent equipment failures and malfunctions.
- The operator should plan preventive maintenance along with the CES (*Clinical*

Engineering Sector) staff and user. The preventive maintenance should be performed according to procedures and at intervals specified by the manufacturer.

- At the conclusion of any preventive maintenance performed, the contracting company shall maintain a service report on the preventive maintenance and control of each of the above. The service report must be signed by the Service representative where the equipment is located, the IBM representative and the Engineer / Technician of the company who will perform the maintenance.
- The contracted operator must appear every month to verify the normal operation of the equipment by means of a factual record signed by the NIS specialists, users and engineers of the firm.
- The Contracting Authority has the right to request verifications other than those planned, in exceptional cases, on specific conditions or as per the particular needs and the Contractor is obliged to accept these requirements unconditionally.

Inspection of medical equipment safety:

- The operator must carry out a safety inspection according to IEC 62353 international electrical standard specified by the Medical Devices Directive (MDD 93/42 / EEC) or the manufacturer, for any medical device and its components, through trained and certified staff.
- The operator must perform visual inspection, testing and measurement with calibrated equipment.
- The operator should plan to perform these tests in collaboration with the Clinical Engineering Sector staff based on the manufacturer's specifications.
- At the end of each safety inspection a report should be drawn up and signed by the specialists of the Sector of Clinical Engineering and the Engineer / Technician of the company conducting the test. This report should be stored in the management system as part of the device maintenance history.
- After each security test on the device, an indication of the safety status of the device must be affixed.
- The Contracting Authority has the right to request verifications other than those planned, in exceptional cases, on specific conditions or as per the particular needs and the Contractor is obliged to accept these requirements unconditionally.

Corrective Maintenance of Medical Devices:

- The contractor company shall perform the maintenance, repair and replacement of any defects / potential / long-term contractual defects on the equipment and all accessories connected to the equipment so that it is in medical staff service such as: printers, cartridges, probes, cufflinks, pulse oximeters, electrodes, ups, blood heaters, developers, film washers, etc., and directly affect the operation of the equipment within the standards specified by the manufacturer.
- The contracting company must appear to check, verify the defect within 24 hours of receiving notifications of normal malfunction, various problems or equipment malfunctions.

Standard Tender Documents

- In the event that no spare parts are required, the fault correction must be completed no later than 24 hours, or a maximum of 48 hours after receiving the notification.
- If it is found that replacement parts are needed to correct a defect, the operator must supply and replace spare parts, repair the defect and restore the equipment to normal working condition within 7 calendar days of the date of the drafting of the protocol for the need of spare parts signed by the CES (*Clinical Engineering Sector*) specialist, user and contractor engineer.
- After repairs or interventions performed, the contracting company must perform calibration, maintenance and verification of parameters as recommended by the manufacturer to ensure the normal operation of the equipment.
- After any repair, replacement of spare parts or accessories, the equipment should be in full working order.
- After each repair or replacement of parts, a record or service report should be kept describing the detail of the fault / problem, parts installed if any, calibrations and test of function. The service report must be signed by the person using the device and / or the Chief of Service where the equipment is located, the NIS specialist and the maintenance company technician or engineer contracted.
- The Contracting Company will only allow for once for each equipment group equipment the movement, removal, dismantling and dismantling if required by the Contracting Authority.

Supply of spare parts and accessories:

- Spare parts must be new, unused and compatible with the equipment.
- Be original or from other certified manufacturers.
- Be CE certified according to the standards and directives approved in the European market.
- When applicable, spare parts and accessories must have accompanying installation manual as recommended by the manufacturer. A copy of this notice shall be submitted to the representative of the Contracting Authority.
- Parts must have no less than 1 (one) year guarantee including all their possible defects.

Execution deadlines:

Article 19 Delay in Performance and Extensions of Term

- 19.1 Except as otherwise provided, the Contractor shall commence performance of the contract immediately after signing it.
- 19.2 Unless the Contracting Authority agrees to contract extension, the Contracting Authority is entitled to liquidate damages for delay in performance if the Contractor fails to perform any of the Goods within the period specified in the contract implementation.
- 19.3 Contracting Authority may deduct the amount of liquidated damages to be paid by the amount of the payment to the Contractor. In such case the Contractor shall notify in writing the Contractor of the amount and reason for the deduction.
- 19.4 Contracting Authority shall agree to an extension of term in case of Force Majeure.
- 19.5 The Contracting Authority may agree to an extension of term in other circumstances if it is in the public interest to do so. If the Contractor encounters conditions that impede the term, the Contractor shall promptly notify the Contracting Authority in writing of the delay, the cause and the proposed date of delivery or completion. The Contracting Authority shall evaluate the request. If the Contracting Authority agrees to the delay, the extension shall come into force with a written amendment to the contract signed by the Contracting Authority and the Contractor.

Article 20 Liquidation of Damages for Late Delivery

- 24.1 Liquidated damages for late delivery will be calculated with the following daily fees:
- a) For contracts with implementation period of no more than 6 months, the daily rate shall be 4/1000 of the corresponding value not been implemented yet by the total contract price, but this value shall be calculated more than 25% of the contract price.
 - b) For contracts with implementation period of no more than 12 months, the daily rate shall be 2/1000 of the corresponding value not been implemented yet by the total contract price, but this value shall be calculated more than 25% of the contract price.
 - c) For contracts with a period of performance of more than 12 months, the daily rate shall be 1/1000 of the corresponding value not been implemented by the total contract price, but this value shall be calculated more than 25% of the contract price.

Article 21 Negotiations and Amendments

- 21.1 The parties shall not negotiate changes or amendments to any element of the contract that shall change the conditions that underlie the selection of the Contractor.
- 21.2 No amendment or other variation of the contract shall be valid unless it is in writing, it is dated, it is expressly referring to the contract and it is signed by an authorized representative of the Contractor and the Contracting Authority.
- 21.3 Any withdraw from the rights, powers or remedies that may be made under the contract must be in writing, dated and signed by an authorized representative of the party granting such waiver, and must specify the right and the extent which it is issued.

Article 22 Order Modification

- 22.1 The Contracting Authority reserves the right to order additional goods or services up to a size that does not exceed 20% of the total contract price. Any extra request must be made in a manner consistent with the rules and procedures stipulated in the Law on Public Procurement.

Article 23 Termination for Default

- 23.1 The Contracting Authority may terminate the contract in whole or in part, if:
 - a) Contractor fails to delivery of the Goods within the period specified in the contract or within any extension granted; or,
 - b) Contractor fails to perform any other obligation of the contract.
- 23.1 The Contracting Authority shall give written notice of termination for default and grant the Contractor 15 days to cure the default unless the termination is for corrupt or illegal actions, in which case the termination shall be immediate.

Article 24 Termination for Insolvency

- 24.1 The Contracting Authority may terminate the contract at any time if the Contractor becomes bankrupt or insolvent.
- 24.2 The Contracting Authority shall give written notice of termination.

Article 25 Termination for reasons of Public Interest

- 25.1 The Contracting Authority may terminate the contract at any time if it determines that this action must be taken to best serve the public interest.
- 25.2 The Contracting Authority shall provide the Contractor written notice of termination.
- 25.3 The Contracting Authority shall pay the Contractor for all goods accepted and services related to them and performed before the termination and shall pay the Contractor for damages incurred for partially performed Services in connection with them. In calculating

the amount of damages, the Contractor shall be required to take all necessary actions to minimize the damage.

Article 26 Subcontract

- 26.1 A subcontract shall be valid only if it is in the form of a written agreement by which the contractor entrusts performance of a part of his contractual obligations to a third party
- 26.2 The Contractor shall not subcontract without prior written approval of the Contracting Authority and not more than 40% of the contract value. The Contractor shall notify the Contracting Authority of the contract to be sub-elements and documentation that proves the ability of sub-contractor. Contracting Authority shall notify the Contractor of its decision within 5 days of receiving the notification, stating the reasons whether it approves it or not.
- 26.3 Each subcontractor has the right to participate in public procurement under the Law on Public Procurement. Authority may direct payment to the subcontractor to supply services to be.
- 26.4 When the Contractor intends to carry out a part of the works with the subcontractor, he must submit in the bid, according to the tender documents, all the documentation required for the subcontractor as well as the concrete works that will be subcontracted.
- 26.5 The contractor remains fully responsible for the implementation of the contract irrespective of the subcontractor's behavior.

Article 27 Transfer of Rights

- 31.1 The Contractor shall not transfer, in whole or in part, its obligations under the contract except with the prior consent of the Contracting Authority.

Article 28 Contract Insurance

- 28.1 Before signing the contract, the contractor shall provide to the Contracting Authority contract insurance in the amount and form required.
- 28.2 The amount of contract insurance shall be payable to the Contracting Authority as compensation for any loss resulting from the Contractor's failure to fulfil its obligations under the contract.
- 28.3 The contract insurance guarantee shall be returned to the Contractor not later than 30 days after the date of receipt of the Goods. However, five (5) percent of the deposit will be held until satisfactory fulfillment of the contract obligations.

Article 29 Legal Basis

- 29.1 The contract shall be regulated and interpreted according to the Albanians in the applicable legislation.

Article 30 Resolution of Disputes

- 30.1 The Contracting Authority and the Contractor shall make every effort to resolve any disagreement or dispute arising between them under or in connection with this agreement by direct negotiation.
- 30.2 If the parties fail to resolve the dispute or conflict, problems shall be considered through contract dispute resolution and legal procedures in force under the legislation of the Republic of Albania.

Article 31 Representation of Parties

DRAFT FRAMEWORK AGREEMENT (DEFINING ALL TERMS) FOR WORK/GOODS/SERVICES)

[Use of this draft agreement is binding on all contracting authorities using the framework agreement)

No. __

DATE:

Standard Tender Documents

This contract is concluded on [date] between [name and address of the Contracting Authority], hereinafter referred to as the “Contracting Authority” and [name and address of Contractor] represented by [representative], hereinafter referred to as “Contractor”.

Contractor, through his bid, on [date] agrees to supply goods, as specified in the terms set out in:

- This contract
- Bid Declaration Form submitted by the Bidder
- Technical Specifications
- Bid Price Form

All these documents attached are an integral part of this Contract.

Article 1 Object

- 1.1 The scope of the framework agreement is to define terms, including prices per unit and rules for the delivery of goods/services/works below.

[General description]

- 1.2 The framework agreement shall be implemented with dispatch of invitations to tender to economic operators participating to the agreement. E.g. whenever the Contracting Authority involved in this agreement, shall purchase items under this contract, must send “invitation to tender” to the contractor, specifying the list of items to supply their respective quantities.
- 1.3 Amounts foreseen are only a quantity orientation and do NOT condition the Contracting Authority to acquire them. The Contracting Authority has the right to buy less or more quantity than those indicated.
- 1.4 The Contractor shall not be entitled to compensation and shall not be allowed to make changes to the unit price, for instance in case the contracting authority decides to purchase fewer or more quantities than those specified and/or in case the contracting authority decides not to purchase any of these quantities for some items.
- 1.5 Duration of the framework agreement:

Article 2 Price

- 2.1 Prices per unit of work/goods/services are shown in the Bid Price Form.
- 2.2 Unit prices shall be fixed and not subject to change for orders placed on this framework agreement.
