The graph illustrates the growth of the labor force over a 30-year period. The y-axis is labeled with values 0, 50, 100, 150, 200, 250, 300, 350, and 400, representing millions of people. The x-axis is labeled with years from 1 to 99, corresponding to 1970 to 1999. The line starts at approximately 200 million in 1970, dips slightly to around 190 million by 1975, and then rises steadily to over 350 million by 1999. There is a noticeable change in the slope of the line around 1980, where the growth rate appears to increase significantly.

Year	Number of people (millions)
1970	200
1975	190
1980	200
1985	220
1990	250
1995	280
1999	350
